

RIBBON

by Bob Manders

Interlinked structure

Interlinked structure

A single piece featuring clean lines, welded together as one whole, defines the design of our RIBBON collection by Bob Manders.

The unique design is based on the architectural style 'Ribbon', to which the series owes its name, where walls, floors, and roofs join to form a single, self-supporting yet interlinked structure. This results in an unbroken sense of movement and momentum as the areas flow into one another. That same principle can also be observed in the hardware collection.

Onderling verbonden structuur

Een handgreep gemaakt uit één stuk met strakke lijnen – dat zijn de kenmerken van de RIBBON collectie by Bob Manders. Het unieke design is gebaseerd op de architectonische stijl ‘Ribbon’, waaraan de collectie haar naam dankt. Ribbon architecture is de term die wordt gebruikt voor de manier waarop de muren, vloeren en het dak van een gebouw samen een zelfdragende maar onderling verbonden structuur vormen. Een dergelijke constructie geeft een voortdurend gevoel van beweging en momentum doordat de ruimtes in elkaar overlopen. Ditzelfde principe komt in het klein ook terug in deze hardware collectie.
