BØNNELYCKE MDD

Bønnelycke mdd was established in 1988. Driven by an unsuppressable urge to work constructively and innovatively, Henrik Bønnelycke started his career with the design of lamps, furniture and interior decorating. Quickly, he became known as an unconventional architect with no whims and fancies.

“It could be fun” and “of course it can be done” - are phrases often used in his company. This has resulted in a comprehensive portfolio of projects and designs - spectacle frame design, racing boats, lighting, furniture and buildings to name a few - several of them award winning and patented designs.

At Bønnelycke mdd they do not design for the sake of it. They believe that design does not hold any values per se. To Bønnelycke, the value of a design emerges when a product has relevance and when it is purchased, used and appreciated - this is why they design.
