d line is a leading Danish design brand that conceives and hand crafts enduring architectural hardware, sanitary ware and solutions for barrier-free living.

that endures

Design

About d line

Since we began, we have believed that the best ideas respond to a need. This started in the 1960s when the Danish designer Knud Holscher was working under Arne Jacobsen on St. Catherine's College, Oxford. It was his need for a high-quality, coordinated line of stainless steel architectural products that led him to design one.

The d line sanitary range by Knud Holscher combines cleanness in its lines with cleanliness in its function. This series consists of fittings that form a cohesive whole.

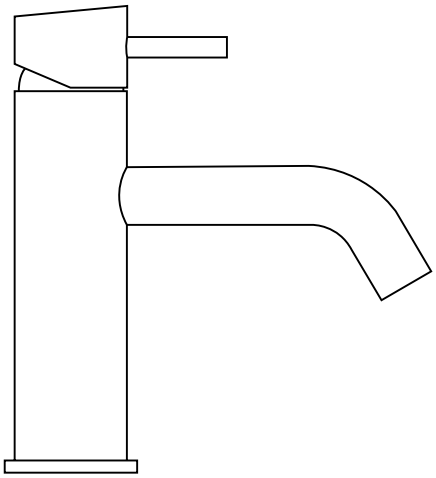
Complementary to our Knud Holscher bathroom accessories is our selection of taps and shower fixtures from the recently launched Qtoo collection. Realised in the same quality stainless steel and and with the same precision designed, minimalist aesthetic, The Qtoo collection is an unparralleled match to the original launch pieces dating back to 1971.

Wherever they appear, our sanitary products can be flexibly combined yet always provide the same uniform impression. In their technical design, installation and maintenance are key focuses, to meet the need for impeccable hygiene no matter how long they live in a space.

To the spaces they occupy, they bring a sense of unity – they are often the finishing touches, yet they are never an afterthought.

The industry's first circular system that will prolong the life of products up to 100 years

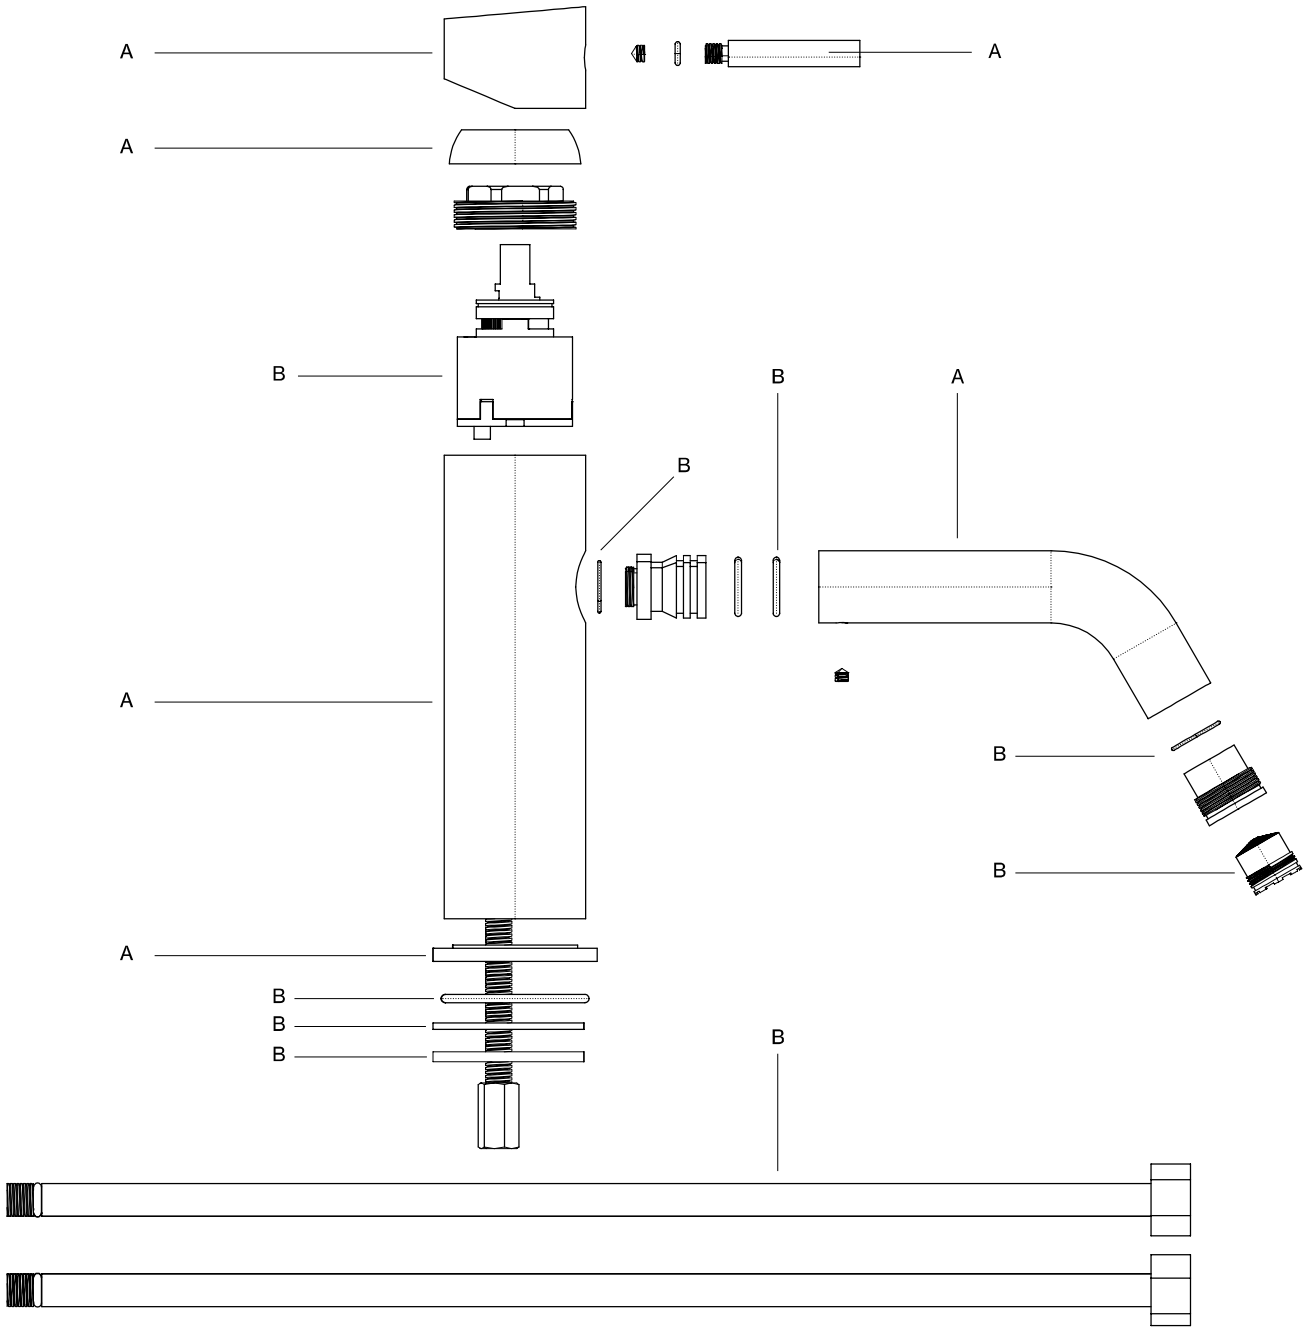
d line will now take in original products to be Re-handled. We fix, replace and brush them to work good as new. With each Re-handle®, we save the environment up to 90% CO_2 emission.



Re-handle®

Sometimes good as new is better
Low quality is a waste of resources. we challenge you to Re-handle® the same product up to four times. With each Re-handle® the 20-year product warranty period is renewed, securing 100 years of use. With an asking price for a Re-handled product that is 60% lower than a newly produced item, it is straightforward to make the enduring choice and reuse instead of buying new.

Designed to never become waste
Long before global warming became an issue of concern, d line made a promise that we would create things that are timeless in their design and enduring in their strength, so that they wouldn't need to be bought for a purpose more than once. It is this uncompromising approach to design and our complete supply chain control, that makes Re-handle® the most revolutionary circular system in our operating industry.



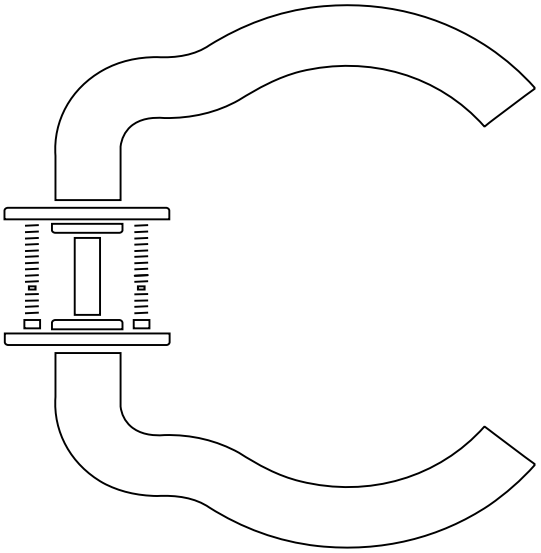
A – repolish
B – replace

Reuse in order to reduce

We know that every new product put into the world has severe CO_2 impacts. By choosing to Re-handle our products instead of producing new, you will dramatically reduce the carbon footprint between 54-91%, depending on the product.

We know this, because we have documented our products complete Global Warming Potential (CO_2 emission) across the entire life cycle, based on internationally recognized Environmental Product Declarations (EPDs executed and verified by third party).

- 20-year product warranty, renewed at every Re-handle.
- EPDs with full declaration on 40% of our portfolio.
- Re-handle possibility on 250 items.
- Reduce the Global Warming Potential between 54-91% with each Re-handle.
- 100% recyclable AISI 316 stainless steel.
- Recycled and recyclable packaging.



Taps, external fixtures & wastes

10.8 kg. CO_2 ⋯⋯▸ **0.95 kg. CO_2**

91% less emission

Built-in tap, shower & bath tub sets

63.43 kg. CO_2 ⋯⋯▸ **12.23 kg. CO_2**

81% less emission

Average kg. CO_2 emission per category.

Though many d line products can be classed as industrial in both their design and their look, none of them are industrially made. They are hand crafted in our factory by our dedicated specialists.

Craftsmanship

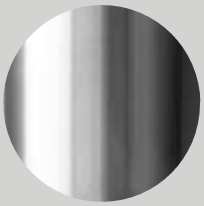
Tube cutting, welding, bending, grinding, polishing, assembly and packing – all of these stages of our production are undertaken by people, with the help of specialized machines, and each is carried out by one person before being passed on to the next.

These tasks are truly specialized. To achieve each tiny detail in a d line product, for example, special stamping and cutting tools have been developed just to create that single element. Meanwhile, to execute the grinding and polishing that results in our signature d line satin finish, a product is gently held by hand against a spinning wheel at specific angles and with equal pressure applied to every millimetre of the whole. This is carried out as four different steps before the product is wrapped for transportation to the next station.

Labour-intensive processes such as these are critical for the achievement of precision and perfection. We think they're worth it because the resulting products are truly enduring.

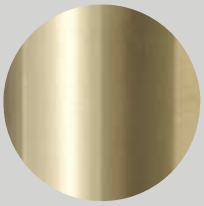
After our pieces are carefully crafted, they are packed and shipped in cardboard boxes made from recycled and recyclable cardboard. We purchase our boxes locally, not only from a subsidiarity principle to avoid unnecessary transport, but also to support our local communities and businesses.

Colours and finishes

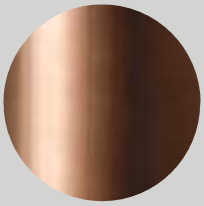


Stainless steel

PVD charcoal



PVD brass

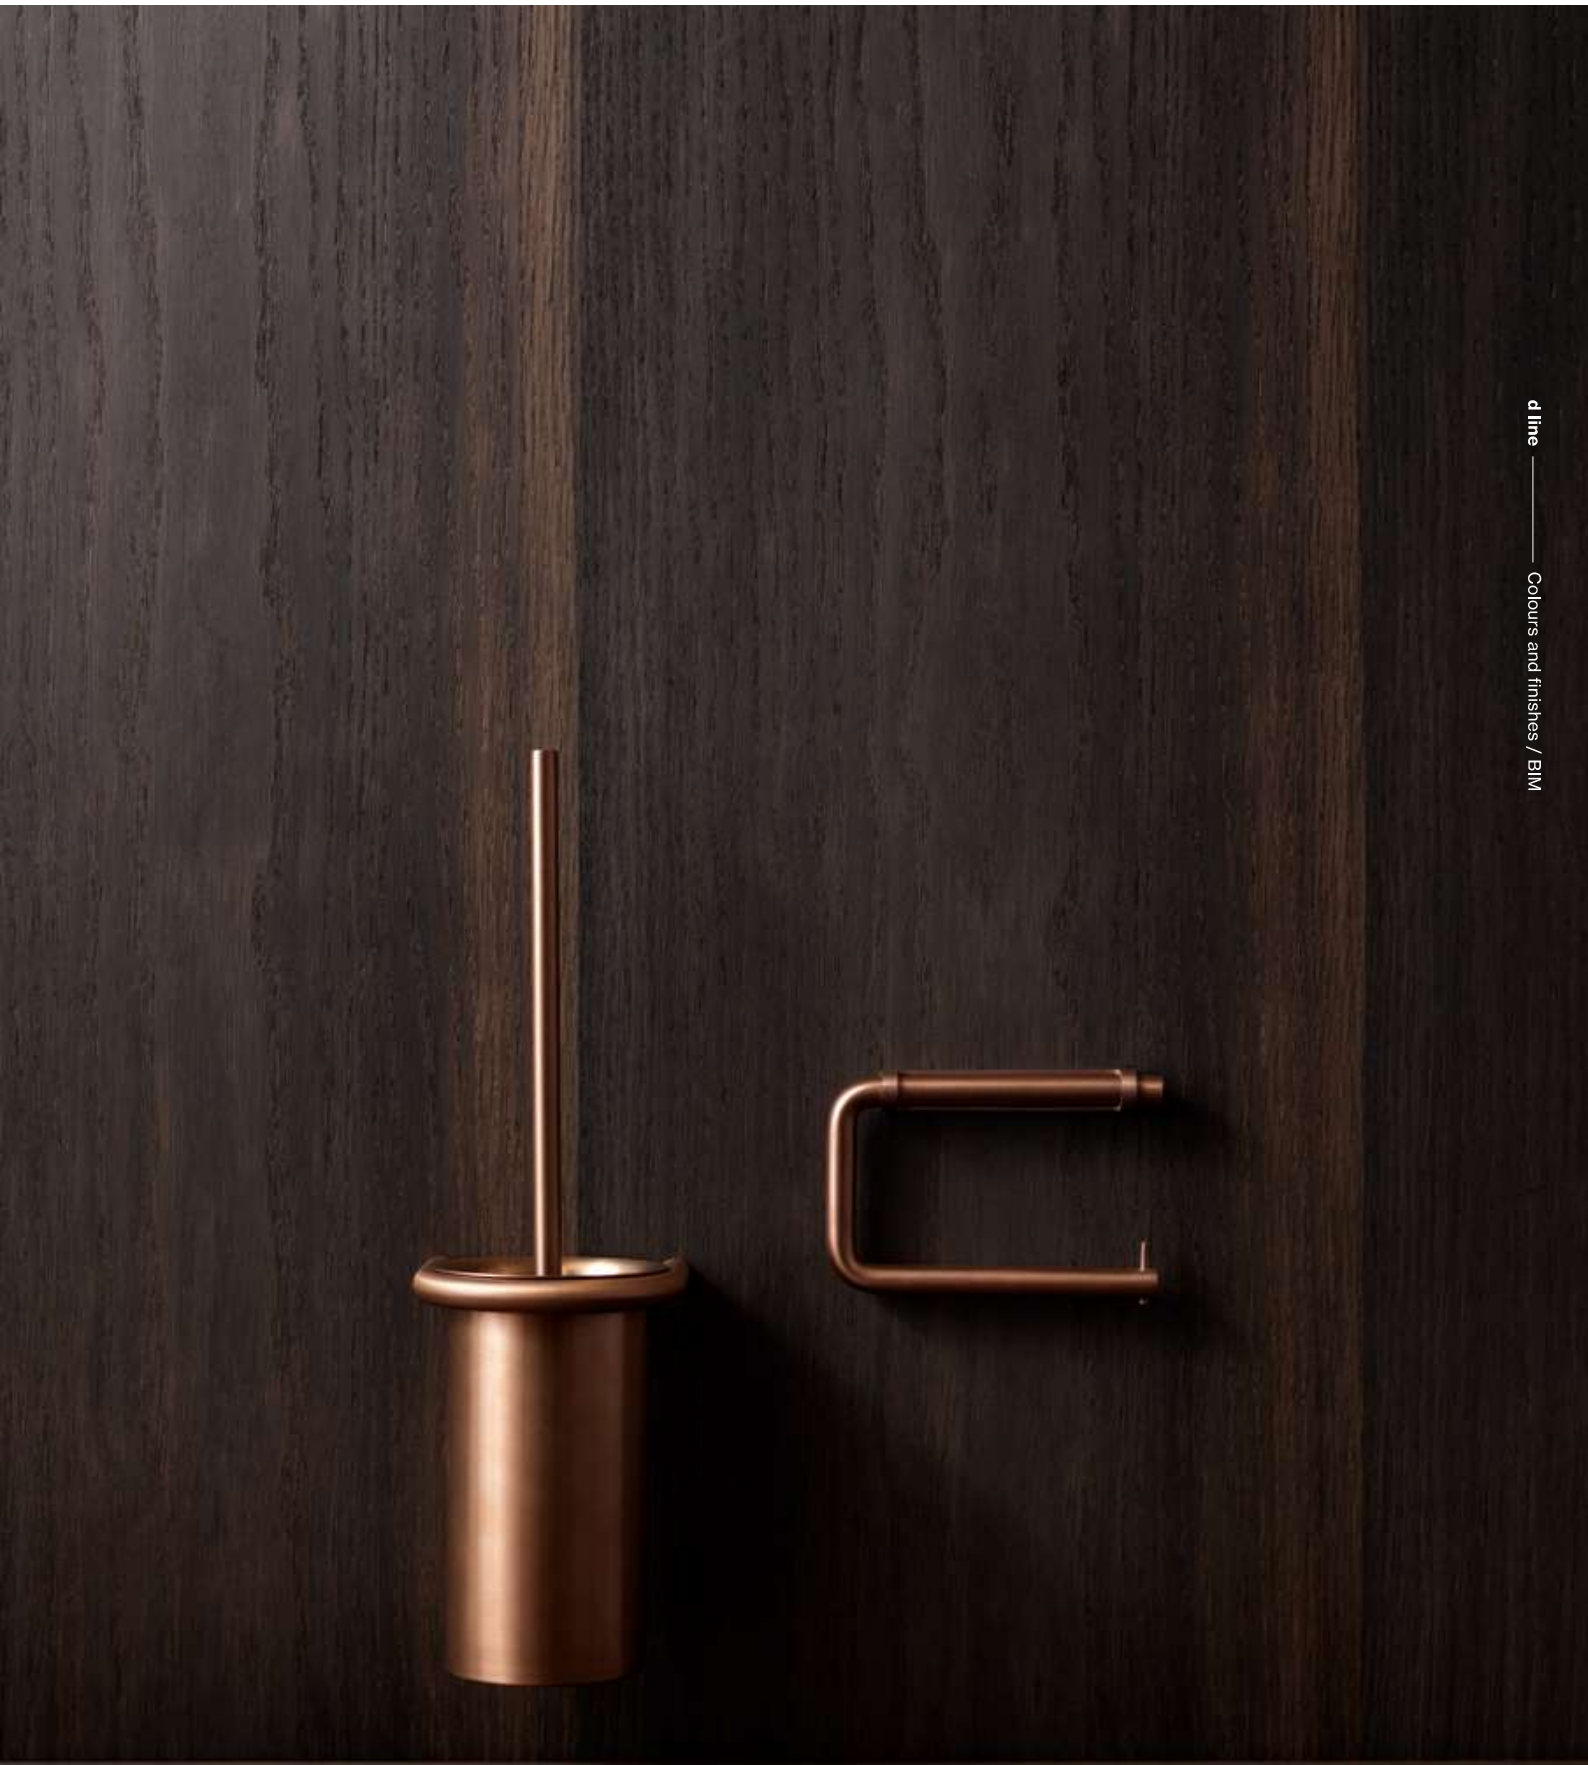


PVD copper

Solid metals
AISI 316 stainless steel have long been our metal of choice, because it never dates and meet our exacting quality standards. Grinding and polishing are what create our signature d line satin finish. For our method, a product is gently held by hand against a spinning wheel at specific angles, and with equal pressure applied to every millimetre of the whole. This is carried out as four different steps.

Choose between steel in either satin or polished finish.

PVD finishes
Physical vapour deposition (PVD) creates an extremely high-quality, high-durability finish when applied to stainless steel. With it we can now create our pieces in a brushed satin or a polished finish, in Copper, Charcoal and Brass. This treatment allows for our AISI 316 stainless steel to take on a new metallic hue, while staying resistant to the humidity and cleaning materials typical to bathrooms. Besides our 20-year product guarantee, we offer a 5-year guarantee on the PVD finish.



Qtoo collection

The Qtoo Collection was launched in 2020, to further leverage d line's ability to achieve complete cohesion within architect-designed spaces. The collection brings to the market 100% recyclable stainless steel taps and shower fixtures, which share our precision-designed, minimalist aesthetic.

d line
Qtoo collection

Qtoo makes use of marine-quality, non-corrosive AISI 316 stainless steel favoured by d line, utilising steel for both its internal and external parts.

Precision, minimalistic and innovative

Created through an established collaboration with Danish design studio Hans Thyge & Co., each Qtoo piece blends a simple silhouette with innovative ideas, balancing soft, feminine shapes with perfectly composed geometric lines.

The Qtoo pieces are available in brushed and polished stainless steel, as well as brass, copper and charcoal. With these same finishes applicable to our sanitary ware by Knud Holscher, this means a more comprehensive range across the d line bathroom category.

Sustainable thinking
All materials within a Qtoo product are 100% recyclable. Stainless steel is favoured because the amount of heavy metals are also much lower in stainless steel, when compared to normal chrome products. Simultaneously, in the production of stainless steel no chemicals are used, nor any contaminating surface treatments.

The Qtoo products further utilizes integrated air mixers as standard to reduce water consumption. The products are CSA certified and conform to California Code, which mean that our products live up to strict water saving standards. Healthy drinking Qtoo products also prioritise health, promising extraordinarily clean water from every tap, each of which is lead-free, allergy-friendly and GDV- and NSF/ANS161-certified, to ensure lower levels of heavy metals in water. Each also comes with a 20-year guarantee and is leakage- tested at 15 bar.

QS3200-340WM
Built-in two-way shower set in satin stainless steel.

For washbasin

Whether counter- or wall-mounted, the Qtoo Collection washbasin taps are all about balanced proportions. Each minimalist tap is operated with a single lever that moves softly to turn the water on, and manoeuvres just as seamlessly to adjust temperature or flow.

As with any Qtoo wall mounted piece, our taps come with pioneering multi-adjustable built-in units for safe and easy installation.

Staying true to the Qtoo sustainability principles, all stainless steel parts are 100% recyclable and comes with a 20-year guarantee.

QT3100-190SM
Built-in tap,
190mm spout

In an exclusive villa in Klampenborg just outside Copenhagen, this astonishing bathroom has been gently renovated by Danish Interior Designer and influencer Emil Thorup.

It's Scandinavian minimalism at its best, the natural stone and the light oak lead the mind to the raw materials that exist within the nordic nature. The bathtub set and the built-in tap from the Qtoo collection are in perfect harmony with the alluring, oval bathtub and the eggshaped washbasin.

For shower and bathtub

The Qtoo Collection shower and bathtub system of showerheads, spouts and control unit combinations are for mixing and matching to personal taste and need. Each element of the system is perfectly minimal, with every detail precision-designed around function.

The collection is designed to be wall-mounted and built in the wall. The control units operate the water and flow, and adjust the temperature, with an optional thermostat that offers smart antiscald function to safeguard families with children.

- Built-in depth: 69 mm
- 400 mm projection
- Rose diameter: 90 mm
- Flow rate limited to max. 5.7lpm
- Spare flow regulator included 9.5lpm
- Anti lime scale
- Lead free compliant

A year ago, Johanne Landbo and her little family took the big leap and moved from a rooftop apartment in Barcelona to an original 70's house the small Danish village Thy. Though it was a major change, they were never in doubt that this gem in Northern Jutland was their new home.

The greatest inspiration for the bathroom and the rest of the house came from old interior books from the 1970's, but since the materials from that decade can be quite remarkable Johanne wanted to combine them with clean wooden furniture and contemporary steel and charcoal elements.

The taps, showers and sanitary ware in the bathroom are steel pieces from the Qtoo and Knud Holscher collection. To create a contrast to the steel elements, Johanne chose the inflated Fat lever handle in charcoal from our collaboration with Tom Dixon.

Flushing plates

Joining our Qtoo collection of taps and shower fixtures is our take on the perfect flushing plate for your wall hung cisterns.

Staying true to our design principles ours is crafted in AISI 316 stainless steel. This is not only to uphold our 20-year product warranty, but also to offer our flushing plates in the d line colour palette to mix and match with our other collections and products.

We always prefer AISI 316 stainless steel for products in bathrooms, as they can endure high humidity and increased maintenance levels that are often required in these types of spaces. Our flushing plates are compatible with Geberit Duofix Sigma solutions.

Knud Holscher collection

"Architects have a mind for unity. In terms of design, coherence is the word; the series forms a unity in concert with the architecture"

– Knud Holscher

d line —— Knud Holscher collection

Functionality, simplicity and quality

The d line sanitary range combines cleanness in its lines with cleanliness in its function, and unlike our hardware collection of individual yet complimentary items, this series consists of fittings that form a cohesive whole.

Holscher graduated from the Royal Danish Academy of Fine Arts School of Architecture in 1957, having studied under Arne Jacobsen. Only three years later, he found himself working for his professor on St. Catherine's College, Oxford, and thumbing through stacks of brochures to piece together its finishing touches.

As a result of this frustrating exercise, Holscher came to design a series of award-winning, minimalist architectural hardware for d line, starting with the iconic U and L levers, whose characteristic bend would influence the entire product range. This also marked the first time AISI 316 stainless steel was used for hardware, and with it Holscher and d line pioneered the category's first truly enduring products.

Dispensers and bins, bathroom accessories, touchless options and barrier-free solutions make up the sanitary range, which sits as comfortably in the interior design of private homes as in high-functioning, high-traffic public buildings.

Simple and modular, the d line sanitary range's AISI 316 rust-resistant, non-corrosive, marine quality steel stands up to the high humidity levels of the bathroom, while its subtle curved edges and functional circular hole details are a nod to the bend in our first ever products, the L and U lever handles.

Holscher has won over 70 awards for his designs, including several iF Design Awards that recognise design excellence and date back as far as 1978 and those first lever handles and doorstops for d line, many of which are exhibited at the Design Museum Denmark in Copenhagen.

Bathroom accessories

Like so many of our pieces, the bathroom accessories are characterised both by straight angles and round detailing. Each piece robustly stands up to humidity, cleaning products and years of use.

That sense of timelessness sums up our products and how their design is enduring. Because they're minimal and clean-lined enough to fit anywhere – whether a palace privy or a modern-day personal sanctuary.

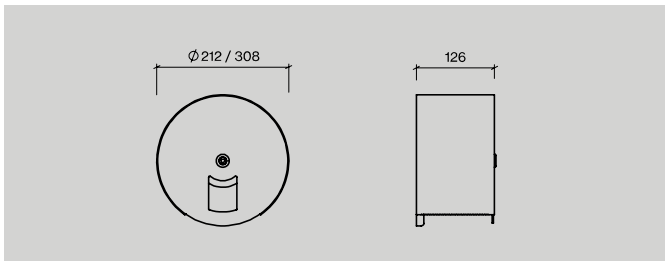
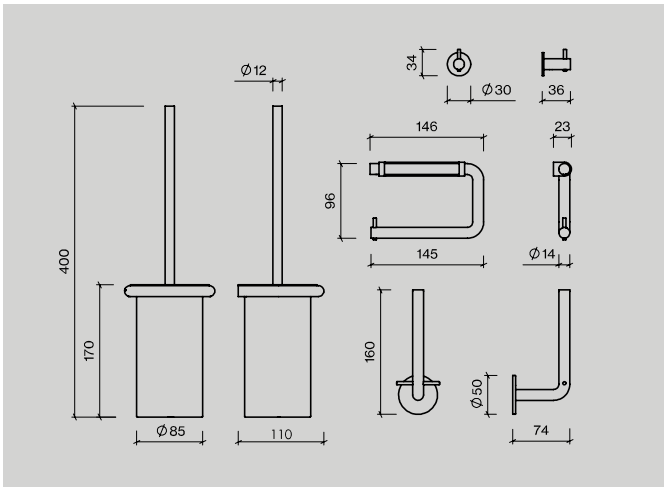
Maxi toilet roll holder



Item no.:	Description:	Unit:
14708602001	Ø212×126 mm, stainless steel front	1pcs
14708702002	Ø212×126 mm, frosted acrylic front	1pcs
14708602200	Ø308×126 mm, stainless steel front	1pcs
14708702201	Ø308×126 mm, frosted acrylic front	1pcs

Bathroom set



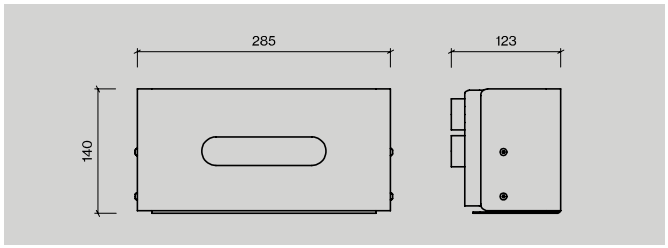
Item no.:	Description:	Unit:
14706002007	d line bathroom box set, 145605-7056-7061-7062	1set

Dispensers and waste bins

Every piece of our modular dispensers and waste bins features curved edges and hole details a nod to the original bend in the L lever handle that d line is renowned for.

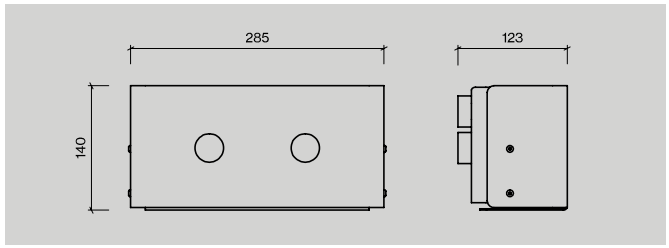
But because our design is not about decorative details, the hole of course has a practical purpose: it's an indicator of when supplies of whatever the piece is holding are running low.

Tissue dispenser



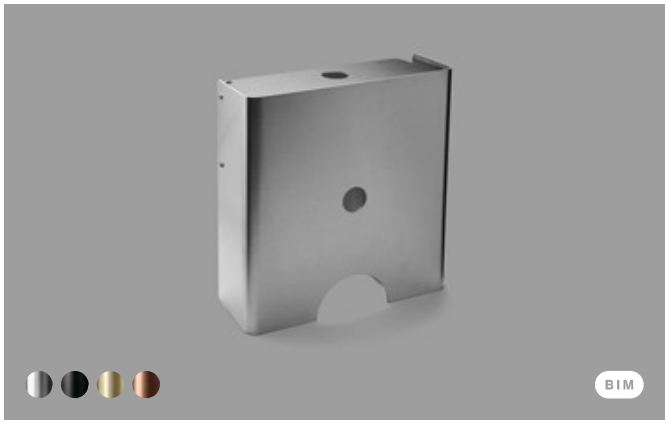
Item no.:	Description:	Unit:
14709102000	Wall mounted, 285×140×123 mm	1pcs
14709100000	Spare part: paper f/tissue dispenser	1 box of 40pcs w/100 tissues each

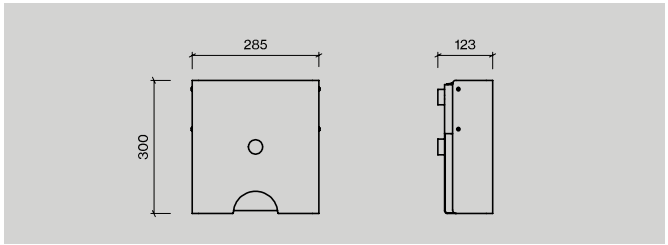
Sanitary bag dispenser



Item no.:	Description:	Unit:
14709502000	Wall mounted, 285×140×123 mm	1pcs
14709500000	Spare part: hygiene plastic bags f/ sanitary bag dispenser	25 boxes of 50 bags

Paper towel dispenser





Item no.:	Description:	Unit:
14708002005	Wall mounted, w/ lid, 285×300×123 mm	1pcs

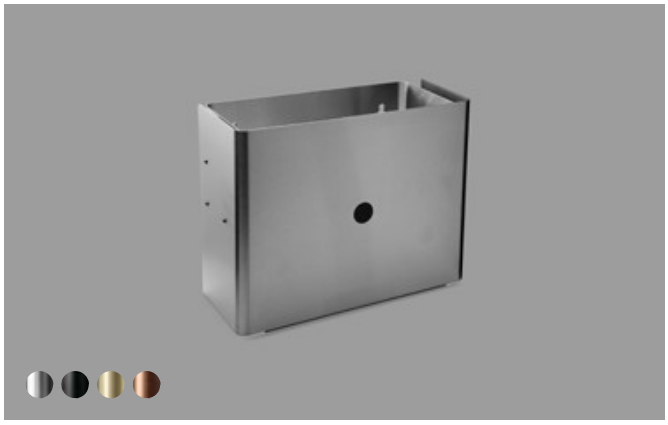
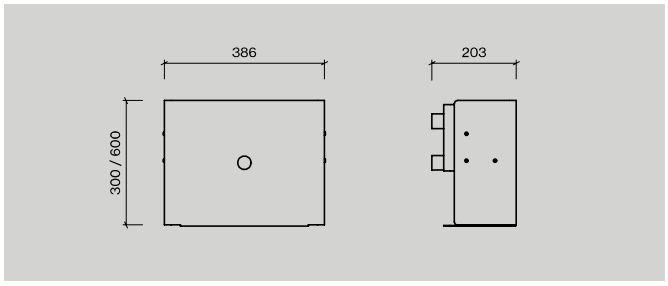
14709702210	Wall mounted, w/lid, 386×800×225 mm, 60 ltr.	1pcs

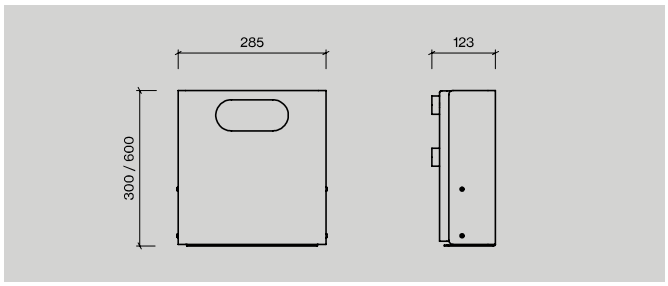
Waste bin, Large





Item no.:	Description:	Unit:
14708502201	Wall mounted, w/o lid, 386×300×203 mm, 17 ltr.	1pcs
14708502301	Wall mounted , w/o lid, 386×600×203 mm, 40 ltr.	1pcs
14708502308	Wall mounted, w/ lid, 386×600×203 mm, 40 ltr.	1pcs

Waste bin, Small



Item no.:	Description:	Unit:
14709702000	Wall mounted, w/oblong hole, 285×300×123 mm, 15 ltr.	1pcs
14709702100	Wall mounted, w/round hole, 285×300×123 mm, 15 ltr.	1pcs
14709702200	Wall mounted, w/oblong hole, 285×600×123 mm, 30 ltr.	1pcs
14709702201	Wall mounted, w/round hole, 285×600×123 mm, 30 ltr.	1pcs

d line —— Knud Holscher collection

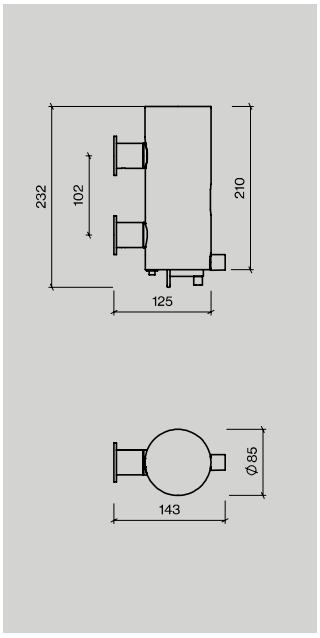
Soap dispensers

Our line of sanitary ware by Knud Holscher is a cohesive group of products in AISI 316 stainless steel, to mix, match and assign various jobs to.

The soap dispensers, traditionally used by bathroom sinks, can also be lined up and wall-mounted in the shower for shampoo, conditioner and shower gel, for a clean, bottle-free bathroom aesthetic.

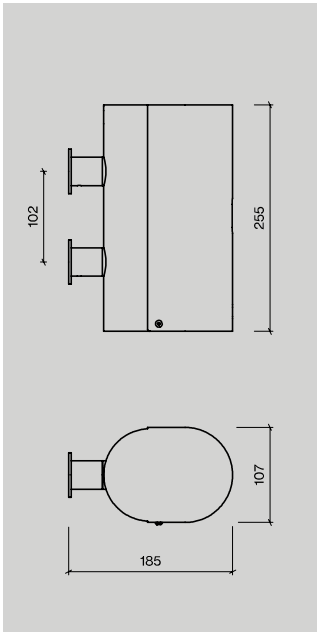
Our new Touchless soap dispensers by Knud Holscher merges technology with heritage. Realised in AISI 316 stainless steel, these are already-loved pieces from our sanitary ware line, that have been given new functionality and an amplified hygiene factor by being fitted with motion-activated technology. The result? A clean look with cleaner functionality.

Soap dispenser Ø85



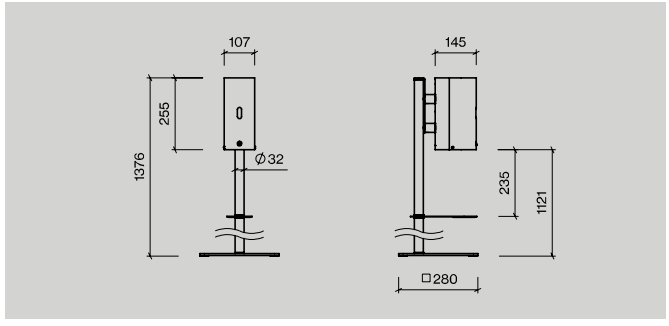
Item no.:	Description:	Unit:
14704502011	Wall mounted, 350ml, w/ indicator, f/soap	1pcs
14704502012	Wall mounted, 350ml, w/o indicator, f/soap	1pcs
14704502013	Wall mounted, 350ml, w/ indicator, f/foam	1pcs
14704502014	Wall mounted, 350ml, w/o indicator, f/foam	1pcs
14704526001	Spare part: soap container f/ Ø85 mm, f/ soap & disinfectant	1pcs
14704526003	Spare part: soap container f/ Ø85 mm, f/ foam	1pcs

Touchless soap dispenser



Item no.:	Description:	Features:	Unit:
14704602000	Wall mounted, f/soap	800ml refillable container.	1pcs
14704602010	Wall mounted, f/disinfection	Battery or mains powered.	1pcs
14704602020	Wall mounted, f/lotion	AC/DC adapter details:	1pcs
14704602030	Wall mounted,f/ foam	Input: 100-240V, 50/60Hz, 0.5A Output: 6V, 1.0A	1pcs

Free-standing touchless dispenser f/disinfection

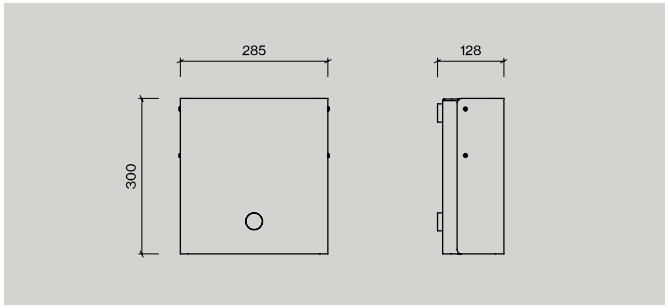


Item no.:	Description:	Features:	Unit:
14704602040	Free-standing, 800ml, f/ disinfection	800ml refillablecontainer. Battery or mains powered. AC/DC adapterdetails: Input: 100-240V, 50/60Hz, 0.5A Output: 6V, 1.0A	1pcs

Hand dryers

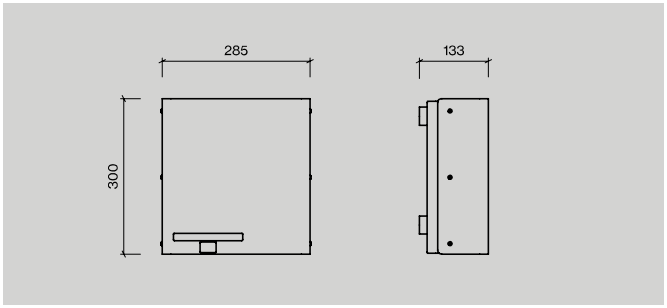
Our series of cohesive, modular architectural hand dryers designed by Knud Holscher continues the d line curved iconography, with rounded edges and functional hole detailing, yet they also embrace the latest innovations in motion-sensor technology.

Hand dryer w/ round details



Item no.:	Description:	Unit:
14708202000	Wall mounted, voltage 220, CE/D Mark	1pcs
14708202001	Wall mounted, voltage 110, ETL Mark	1pcs

Hand dryer w/ square details



Item no.:	Description:	Unit:	Features:
14708202010	Wall mounted, voltage 100-240	1pcs	Certified according to: EN 60335-1:2012, EN 60335-2-23:2003.

Barrier-free

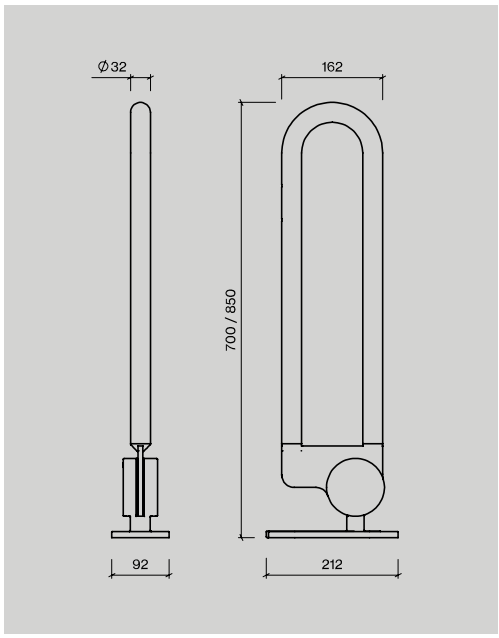
d line's move into barrier-free is about enabling people, and as with many of the products we design, our leap into this important new area started with a need.

The range serves both the disabled community and helps the elderly remain in their homes in a way that is discreet and understated. Like our other categories, our barrier-free products fuse aesthetics and functionality.

Extensive user testing has shown a great need for products in this category that look good, so we have created them with features such as user-friendly operation; different colour options for easy detection by the visually impaired; and warmth to their touch to avoid causing pain to arthritis sufferers (the foldable seat).

Our solutions within barrier-free further extends into hardware and taps and shower fixtures. Combine our pieces from the Knud Holscher and Qtoo collections of barrier-free items to create safe spaces for the less abled.

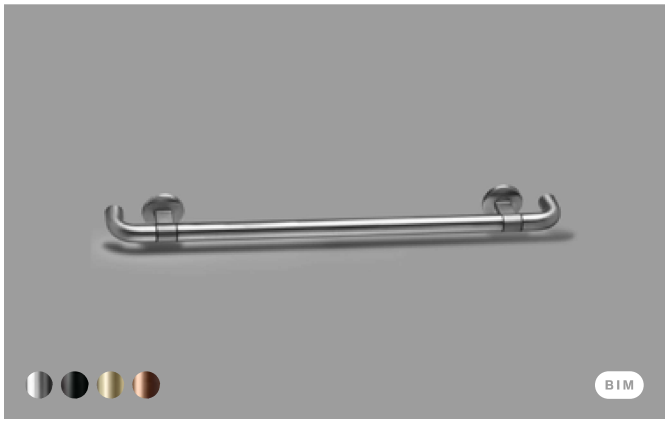
Foldable grab bar

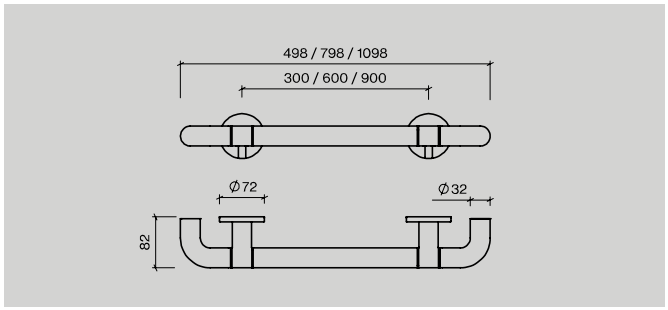


Item no.:	Description:	Unit:
14750202703	700 mm	1pcs
14750202853	850 mm	1pcs
14755602006	Spare part: toilet roll holder, w/ pin, f/grab bar	1pcs
14755602007	Spare part: toilet roll holder, w/o pin, f/grab bar	1pcs

Features:
Tested according to: BS EN 12182: 2012.

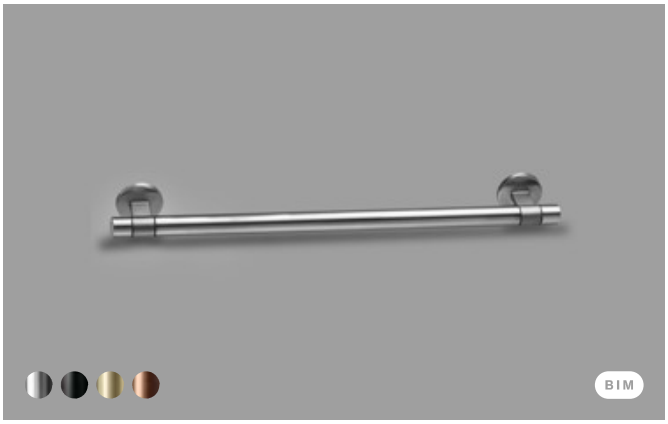
Grab rail set, bent end

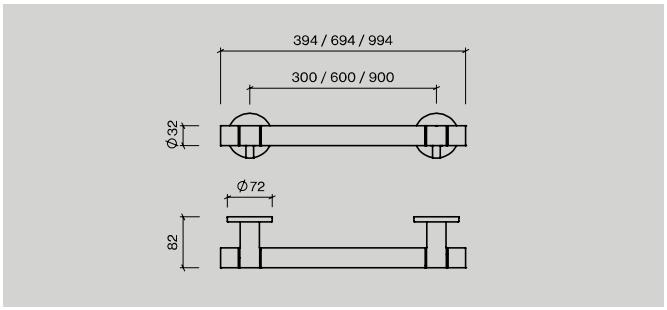




Item no.:	Description:	Unit:
14751002302	CC 300 mm	1set
14751002602	CC 600 mm	1set
14751002902	CC 900 mm	1set

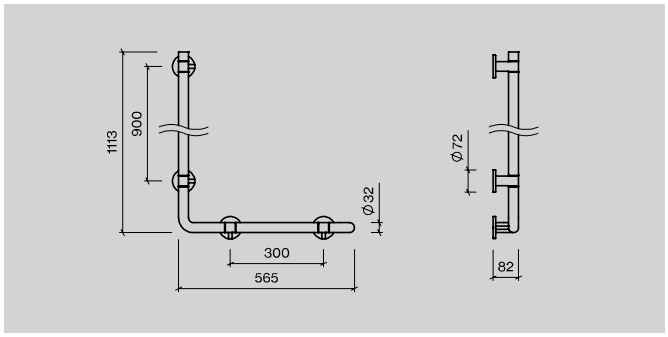
Grab rail set, straight end





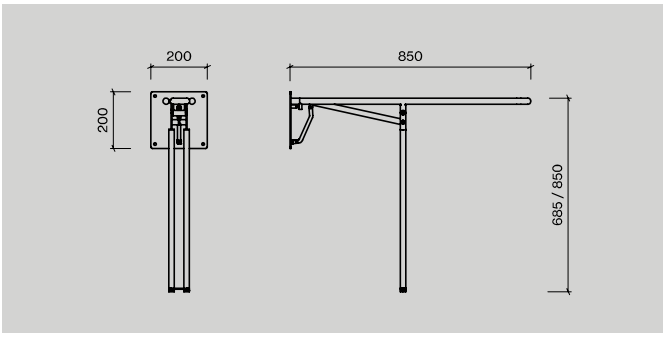
Item no.:	Description:	Unit:
14751002301	CC 300 mm	1set
14751002601	CC 600 mm	1set
14751002901	CC 900 mm	1set

Grab rail system



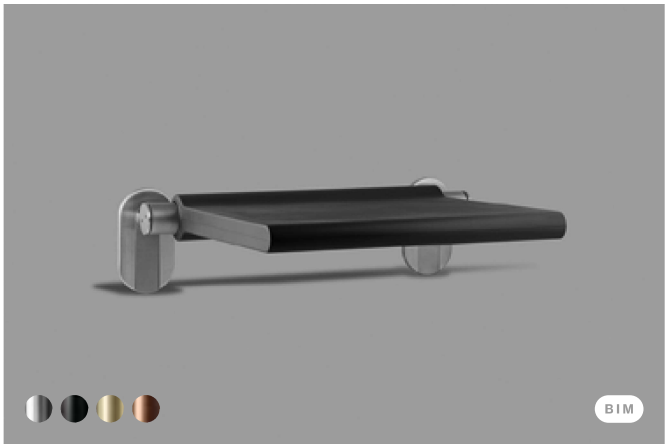
Item no.:	Description:	Unit:
14751202902	CC 900×300 mm	1set

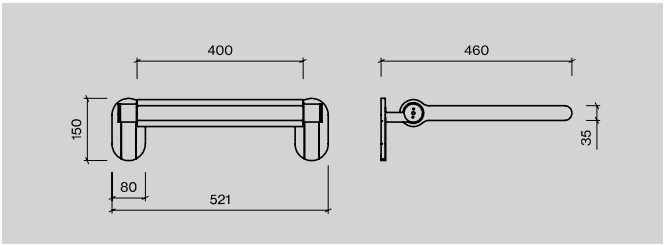
Grab bar w/ leg support



Item no.:	Description:	Unit:
14750002680	w/hinged cantilever, 685 mm, BS	1pcs
14750002850	w/hinged cantilever, 850 mm, DIN	1pcs
14750102001	Spare part: toilet roll holder, f/147500 grab rail	1pcs
14750302850	Spare part: padding profile, f/147500 grab rail	1pcs

Foldable seat





Item no.:	Description:	Unit:	Features:
14750102403	PU foam, H:150 mm, W: 521 mm, D:460 mm	1pcs	The PU-foam used for the foldable seat is REACH-conform. Tested according to: BS EN 12812:2012, §16.2 and §16.3. Max. load: 150 kg.

d line —— Knud Holscher collection

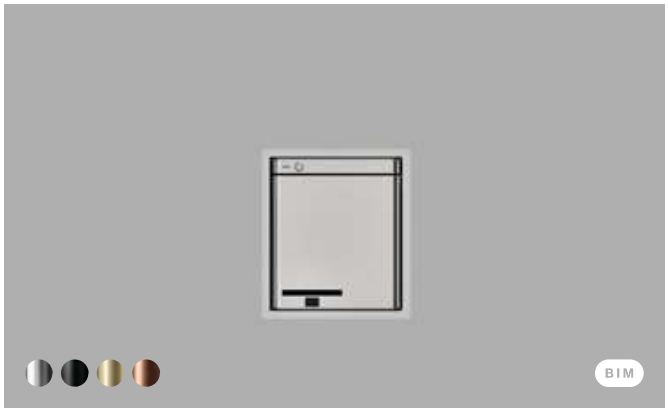
Sanitary panels

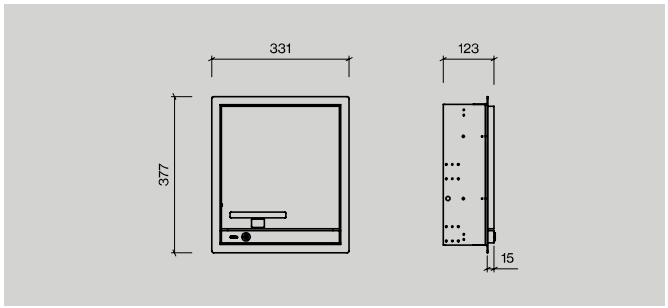
For the panel system, elements are combined within a single frame. Choose between 11 standard combinations, that offer a variety of solutions required to maintain a fully functioning, high traffic washroom. It's why everything is created in AISI 316 rust-resistant, non-corrosive, marine quality steel, which stands up to the high humidity levels of the bathroom – and its daily maintenance.

Installation of the system, pioneered over years of technical design development, takes a maximum of 20 minutes and its onepoint locking mechanism allows for cleaning and refilling every module at the turn of a single key.

Now there are even more variations to the system's design, as each panel is available in our PVD and powder coated finishes.

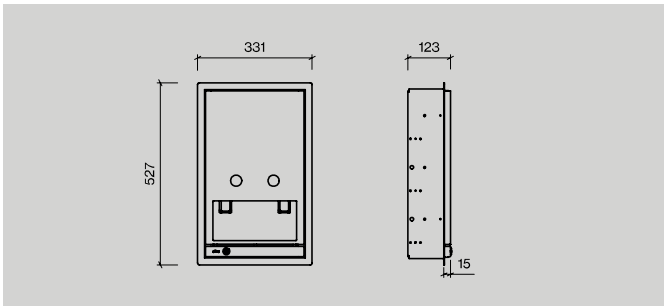
Recessed hand dryer, sanitary panel E





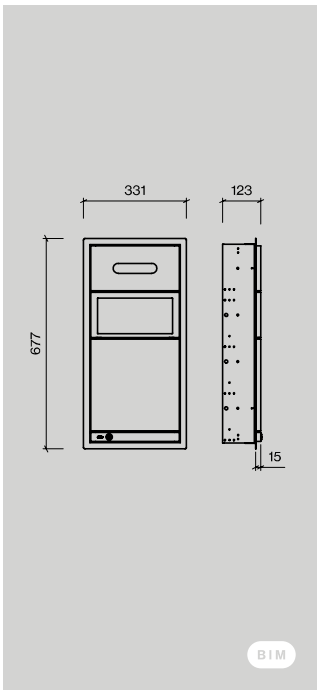
Item no.:	Description:	Unit:
14710002036	Hand dryer	1pcs

Recessed paper dispenser, sanitary panel H



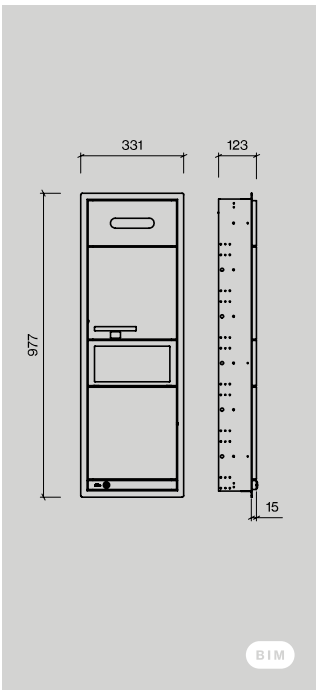
Item no.:	Description:	Unit:
14710003002	Paper dispenser	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs

Sanitary panel MK



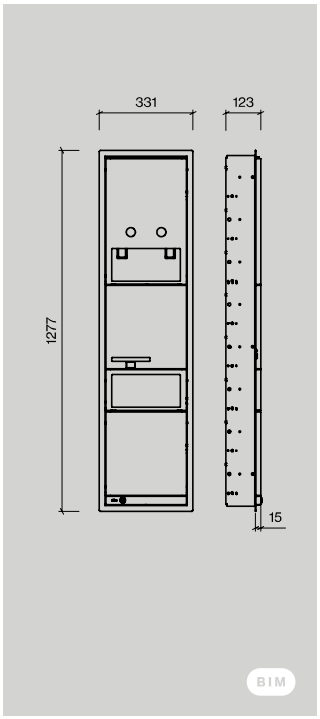
Item no.:	Description:	Unit:
14710004038	Tissue dispenser & mini waste bin 8 ltr.	1pcs
14709700000	Spare part: plastic bags f/mini waste bin, 20ltr	1 box = 150 rolls
14709100000	Spare part: paper f/tissue dispenser	1 box of 40pcs w/100 tissues each

Sanitary panel MEK



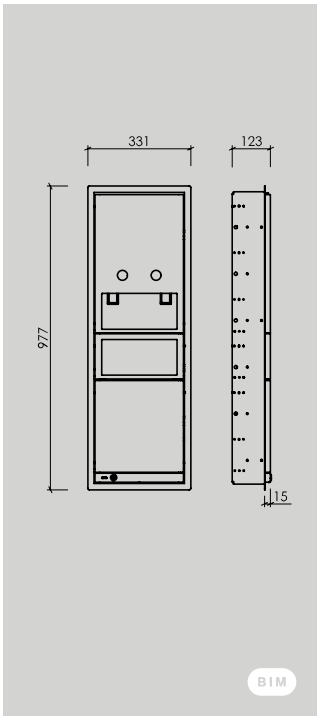
Item no.:	Description:	Unit:
14710006100	Tissue dispenser & mini waste bin 8 ltr.	1pcs
14709700000	Spare part: plastic bags f/mini waste bin, 20ltr	1 box = 150 rolls
14709100000	Spare part: paper f/tissue dispenser	1 box of 40pcs w/100 tissues each

Sanitary panel HEK



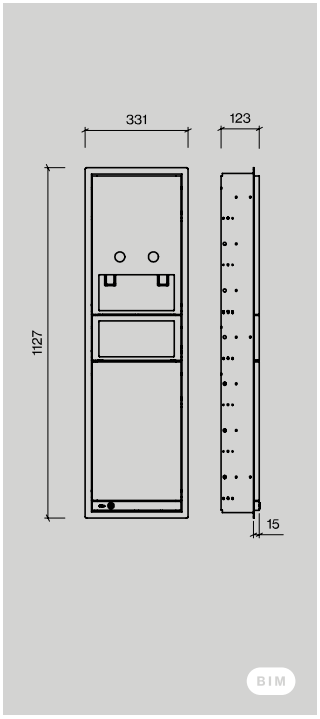
Item no.:	Description:	Unit:
14710008109	Paper dispenser, hand dryer & mini waste bin 8 ltr.	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs
14709700000	Spare part: plastic bags f/mini waste bin, 20ltr	1 box = 150 rolls

Sanitary panel HK



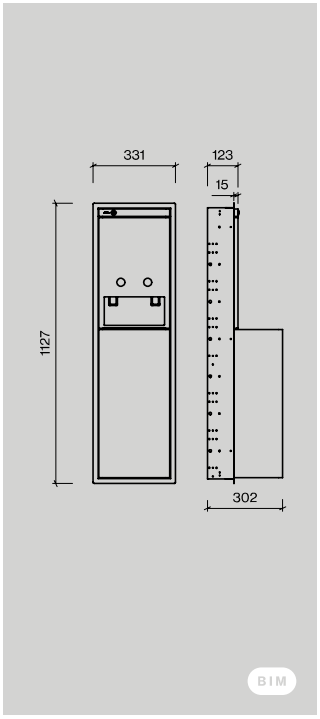
Item no.:	Description:	Unit:
14710006001	Paper dispenser & mini waste bin 8 ltr.	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs
14709700000	Spare part: plastic bags f/mini waste bin, 20ltr	1 box = 150 rolls

Sanitary panel HL



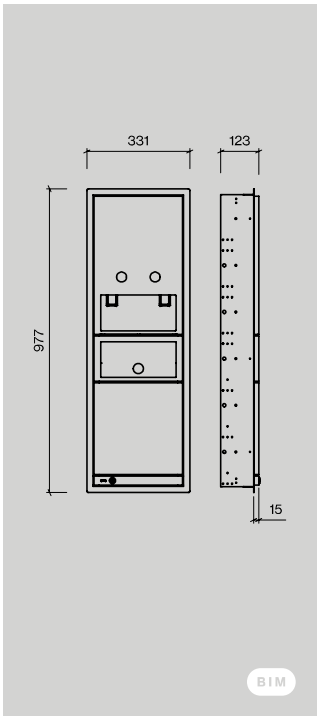
Item no.:	Description:	Unit:
14710007010	Paper dispenser & maxi waste bin 12 ltr.	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs
14709700001	Spare part: plastic bags f/maxi waste bin, 30ltr	1 box = 100 rolls

Sanitary panel HW



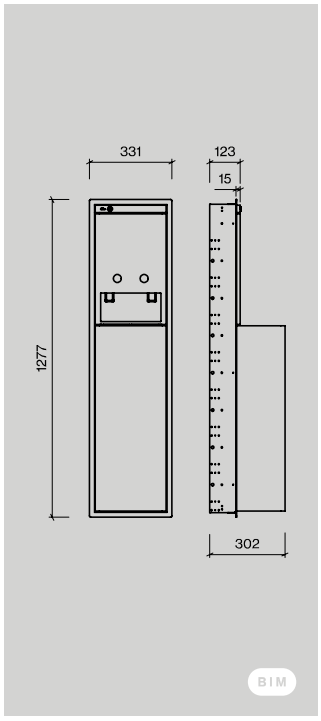
Item no.:	Description:	Unit:
14710007106	Paper dispenser & projecting maxi waste bin 40 ltr.	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs
14709700002	Spare part: plastic bags f/projecting maxi waste bin, 80ltr	10pcs

Sanitary panel HU



Item no.:	Description:	Unit:
14710006051	Paper dispenser & mini waste bin w/ lid 8 ltr.	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs
14709700000	Spare part: plastic bags f/mini waste bin, 20ltr	1 box = 150 rolls

Sanitary panel HZ



Item no.:	Description:	Unit:
14710008103	Paper dispenser & projecting maxi waste bin 50 ltr.	1pcs
14708000000	Spare part: paper f/paper towel dispenser, 2 layers interfolded	1pcs
14709700002	Spare part: plastic bags f/projecting maxi waste bin, 80ltr	10pcs

Luke Arthur Wells, British interior designer and DIY expert, has created a stunning bathroom setup with pieces in charcoal from the Qtoo and Knud Holscher collections. The result is understated, yet impactful balancing soft shapes, natural materials and graphic contrasts to the interior.

Luke has great attention to detail and the sand coloured, rounded sink paired with the off-white walls creates a beautiful tone-on-tone effect. The rich charcoal hue of the built-in tap and sanitary ware is a refreshing contrast and the light background makes them pop a little extra.

d line is available in 40-plus markets across the world, and we maintain close links with our distributors to ensure they always have the very latest details of our products, both new and existing. Because of this, we have total confidence that each of those distributors can completely support you and your project with a full knowledge of our products and their possibilities.

We have hundreds of distributors all over the world, the latest list of which is always available at dline.com

We always name our collections after their designers, because without our designers, we simply wouldn't exist. And we work with more designers and product categories than what is represented in this book, including

lever handles, door stops, cabinet handles, and more.

By Arne Jacobsen, Tom Dixon, and Bjarke Ingels.
